§9–305.

When evaluating and approving a builder's overall site development and construction plans, the cost of the builder's installation of fast response residential fire sprinkler systems shall be considered by:

- (1) local building officials;
- (2) local fire chiefs;
- (3) the State Fire Prevention Commission;
- (4) the State Fire Marshal;
- (5) fire administrators with responsibility for code enforcement; and
- (6) in Baltimore City, the Chief of the Fire Department.
